

Department Of Health Mask Order Reflects Latest CDC Guidance For Fully Vaccinated Individuals

05/13/2021

Harrisburg, PA - Department of Health Acting Secretary Alison Beam announced that the commonwealth's mask order reflects the announcement made by the Centers for Disease Control and Prevention (CDC) earlier today.

On March 16, 2021, the SOH amended the

commonwealth's mask order

by adding language directing to the CDC's guidance for fully vaccinated people allow for no face coverings. That means that today's CDC guidelines automatically go into effect in Pennsylvania. Masking requirement will still be in place as otherwise provided under the CDC guidance and for unvaccinated individuals until 70 percent of Pennsylvanians age 18 and older are fully vaccinated.

"Today's guidance from the CDC affects only people who are fully vaccinated" Acting Secretary Beam said. "This is another incentive to get the vaccine that is now easily and conveniently available. Once 70 percent of Pennsylvanians over 18 are fully vaccinated, we can completely lift the masking order."

The CDC today provided guidance that fully vaccinated individuals can resume activities that they did prior to the pandemic without wearing a mask or physically distancing except where required by law, rule, and regulations, including local business and workplace guidance. Under the guidance, individuals are still be required to wear a mask on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States, and in U.S. transportation hubs, such as airports and stations. In addition, all individuals will still need to follow guidance at workplaces and local businesses.
