Indiana's Novel Coronavirus Response

On March 6, 2020, the state Department of Health confirmed (<https://events.in.gov/event/state-health-department-confirms-1st-case-of-covid-19-in-hoosier-with-recent-travel/>) Indiana's first case of COVID-19, a novel respiratory virus first identified in Wuhan, China, in late 2019 that is responsible for a global pandemic.

On March 16, the Department of Health reported (<https://events.in.gov/event/isdh-news-release-health-department-announces-1st-covid-19-death-in-indiana/>) the first death in Indiana due to COVID-19. On May 18, Indiana confirmed its first case of multisystem inflammatory syndrome in children (MIS-C) associated with COVID-19.

The state Department of Health is working with federal and local partners, including the Centers for Disease Control and Prevention (CDC), to respond to this evolving public health situation.

Please consult this page for updated news and guidance on the COVID-19 pandemic. Updates will be made as new information becomes available. [Click here](#) (<https://events.in.gov/idoh/calendar/month>) for the most recent press releases related to COVID-19.

Contact your healthcare provider if you experience [symptoms of COVID-19](https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html) (<https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>). **Seek care immediately** if you experience symptoms such as trouble breathing, persistent pain or

Hi,

While the [#COVID19](#) vaccine is being administered, it is still important to:

Wash your hands

Wear your mask

Keep your distance.

We're
