Travel Advisory

On December 14, 2020, the Kentucky Department for Public Health (KDPH) revised its travel guidance to discourage all out-of-state leisure travel until further notice.

If persons do engage in out-of-state leisure travel, they are urged to voluntarily self-quarantine for 14 days when they return to Kentucky or follow [CDC guidance](#) for alternate options to shorten the quarantine period.

Additional CDC guidance related to domestic travel during the COVID-19 pandemic includes:

Travel can increase your chance of **spreading and getting COVID-19**. Postponing travel and **staying home is the best way to protect yourself and others from COVID-19**.

You and your travel companions (including children) may feel well and not have any symptoms, **but you can still spread COVID-19 to family, friends, and community after travel**.

If you have a **known exposure** to COVID-19 you should delay travel, quarantine yourself from other people, get tested, and monitor your health. Check your state or local health department for information about local quarantine requirements.

Don't travel if you are sick or test positive for COVID-19. Don't travel with someone who is sick.

Complete CDC guidance on travel can be found here: [Domestic Travel During the COVID-19 Pandemic](#)
