COVID-19 Travel Advisory

Protecting Against COVID-19

Those entering Ohio after travel to states reporting positive testing rates of 15% or higher for COVID-19 are advised to self-quarantine for 14 days.

self-quarantine after leaving those locations. This advisory is intended for both leisure and business travel, and should be heeded by both Ohioans and out-of-state travelers.

The list of states will be updated every week on Wednesday. Based on a 7-day rolling average of positivity rates of August 26, the affected states are:

MS 27.4%

SC 21.1%

TX 16.3%

ID 16.1%

Note: The state of Washington is shaded gray this week on the Travel Advisory Map. Washington has stopped providing overall testing volumes while they implement data systems changes, so positivity data is not available for this week. Based on positivity trends in the recent past, their positivity rate is likely under 15%.

What to Do During Self-Quarantine

- Take your temperature with a thermometer two times a day and monitor for fever, as well as other symptoms including cough, difficulty breathing, fatigue, muscle or body aches, headache, loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea.
 - If fever and/or symptoms develop, call your medical provider.
- Remain at home and avoid all in-person activities. This includes work, grocery stores and pharmacies, public events, and public places.
- If you live in a home with other people who did not travel with you, stay in a separate room. If this is not possible, wear a face mask when you are in the same room and stay at least six feet away from others.
- Do not leave home except to seek medical care. If you need to see a provider for reasons other than a medical emergency, please call in advance and discuss the care you need.
- In the event of a medical emergency, call 9-1-1. Indicate that you are in home quarantine for novel coronavirus exposure. Keep a face mask on until you are asked by a health care provider to remove it.
- Do not have visitors in your home.
- Do not use public transportation, taxis, or ride-shares.

Updated August 26, 2020.

STAY HOME
EXCEPT FOR
WORK AND
OTHER NEEDS

WEAR A FACE
COVERING WHEN
GOING OUT

PRACTICE SOCIAL
DISTANCING OF
AT LEAST 6 FEET
FROM OTHERS

SHOP AT
NON-PEAK
HOURS

WASH HANDS OFTEN
WITH WATER AND SOAP
(20 SECONDS
OR LONGER)

AVOID TOUCHING
YOUR EYES, NOSE,
OR MOUTH WITH
UNWASHED HANDS
OR AFTER
TOUCHING SURFACES

COVER YOUR
MOUTH WITH A
TISSUE OR SLEEVE
WHEN COUGHING
OR SNEEZING

CLEAN AND DISINFECT
"HIGH-TOUCH"
SURFACES OFTEN

DON'T WORK
WHEN SICK

CALL BEFORE
VISITING YOUR
DOCTOR

Protect yourself and others from COVID-19 by taking these precautions.

- Stay home except for work or other needs
- Wear a face covering when going out
- Practice social distancing of at least 6 feet from others
- Shop at non-peak hours.
- Wash hands often with water and soap (20 seconds or longer)
- Avoid touching your eyes, nose, mouth with unwashed hands or after touching surfaces
- Cover your mouth with a tissue or sleeve when coughing or sneezing
- Clean and disinfect "high-touch" surfaces often

If you have questions regarding Coronavirus/COVID-19 please call 1-833-4-ASK-ODH (1-833-427-5634)

CLEAN ALL "HIGH-TOUCH" SURFACES EVERY DAY

High touch surfaces include counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tablets, and bedside tables. Also, clean any surfaces that may have blood, stool, or body fluids on them. Use a household cleaning spray or wipe according to the label instructions. Labels contain instructions for safe and effective use of the cleaning product including precautions you should take when applying the product, such as wearing gloves and making sure you have good ventilation during use of the product.
