Public Health Emergency

The Public Health Emergency has been extended until May 20, 2021.

Phase 2 Updates Beginning May 1, 2021

Activities

- The indoor capacity limit for non-essential retail businesses is raised from 25% to 50% or 250 people, whichever is lower.

Restaurants

- The number of people who can sit together at a table is increased from 6 people to 10 people
- Live music will be allowed outdoors for summer gardens, courtyard dining and sidewalk cafes controlled by the restaurants.
- If customers are sitting outside, alcohol sales can be made without a requirement to purchase food
- The indoor occupancy of restaurants and other licensed food establishments is twenty-five percent (25%) as specified on their Certificate of Occupancy, or no more than two hundred fifty (250) diners, not including servers and staff, whichever is fewer, at any one time.

Entertainment

- Multi-purpose facilities, concert venues, and theaters may open at 25% capacity (up to 500 people) and attendees must remain seated
- Movie theaters can operate at up to 25% capacity (per auditorium)

Ceremonies and Meetings

- Weddings and special events allowed indoors and outdoors at 25% capacity (with a waiver for attendance greater than 250), and attendees must remain seated and socially distanced
- Regional business meetings and seated conventions allowed indoors at 25% capacity (with a waiver for attendance greater than 250), and attendees must remain seated and socially distanced

Places of Worship

- Virtual services and outdoor services continue to be encouraged, especially for those who have not yet been fully vaccinated.

- Places of worship may admit up to 40% of their capacity for the room(s) or area where worship services will be held. This total limit includes worshippers, not including clergy and staff. Health and safety protocols, such as mandatory masking and social distancing, must remain in place.

Fitness and Pools

- Indoor fitness classes can include up to 25 people
- Gyms and fitness centers can operate at 50% capacity (no more than 250 guests)

High-Risk States

Per criteria outlined in Mayor Muriel Bowser's November 23, 2020 update, the following states and territories are not considered high risk as of May 2, 2021. Virginia and Maryland remain exempt.

- Alabama
- Arkansas
- California
- Guam
- Hawaii
- Kansas
- Louisiana
- Mississippi
- Northern Mariana Islands
- Virgin Islands

People who are visiting DC need to:

- ✓ **Get tested before they travel to the District** - within 72 hours of traveling. If they test positive, they should not travel.
- ✓ Visitors should also **not come to DC if they are a close contact** of a confirmed case.
- ✓ And if a person is visiting DC for more than three days, they also need to **get tested again within 3-5 days of arrival**. (Visitors can get free testing at one of the public testing sites.)

Exempt states: Hawaii, Maryland, Virginia

DC residents returning to the District after traveling to any place other than Maryland, Virginia, or a low-risk state or country must either:

- ✓ Limit daily activities and self-monitor for 14 days upon their return; or
- ✓ Limit daily activities until they get tested for COVID-19 (within 3-5 days after their return) and receive a negative result.

Live Entertainment Pilot

The live entertainment pilot is hereby paused. Some previously-approved performances will be grandfathered.

Mayor's Order

GOVERNMENT OF THE DISTRICT OF COLUMBIA ADMINISTRATIVE ISSUANCE SYSTEM

Mayor's Order 2021-066

May 1, 2021

SUBJECT: Wearing of Masks and Other Activities in the District of Columbia To Prevent the Spread of COVID-19 Including Modification for Fully Vaccinated Persons

ORIGINATING AGENCY: Office of the Mayor

By virtue of the authority vested in me as Mayor of the District of Columbia pursuant to section 422 of the District of Columbia Home Rule Act, approved December 24, 1973, Pub. L. 93-198, 87 Stat. 790, D.C. Official Code 1-204.22 (2016 Repl.); pursuant to the Coronavirus Support Congressional Review Emergency Amendment Act of 2020 (the "Act"), effective May 19, 2020, D.C. Act 23-328, and any substantially similar subsequent emergency or temporary legislation; section 5 of the District of Columbia Public Emergency Act of 1980, effective March 5, 1981, D.C. Law 3-149, D.C. Official Code 7-2304 (2018 Repl.); section 5a of the District of Columbia Public Emergency Act of 1980, effective October 17, 2002, D.C. Law 14-194, D.C. Official Code 7-2304.01 (2018 Repl.); section I of An Act To Authorize the Commissioners of the District of Columbia to make regulations to prevent and control the spread of communicable and preventable diseases ("Communicable and Preventable Diseases Act"), approved August 11, 1939, 53 Stat. 1408, D.C. Official Code 7-131 et seq. (2012 Repl.); and the Coronavirus Support Emergency Amendment Act of 2021, effective March 17, 2021, D.C. Act 24-30, and Mayor's Orders 2020-045, 2020-046, 2020-050, 2020-063, 2020-066, 2020-067, 2020-079, 2020-103, 2020-127, 2021-004, and 2021-038, it is hereby ORDERED that:

I. BACKGROUND

1. This Order incorporates the findings of prior Mayor's Orders relating to COVID-19.

2. Community transmission of COVID-19 remains throughout the District. Over 47,800 District residents have tested positive for COVID-19 and tragically 1,106 District residents have lost their lives due to COVID-19.

3. Experts agree that the wearing of masks helps prevent the spread of COVID-19, and vaccination plays a great role in preventing severe illness and death from COVID-19. The Centers for Disease Control and Prevention (CDC) has updated its guidance relating to the necessity of wearing of masks by persons who are fully vaccinated. Interim Public Health Recommendations for Fully Vaccinated People | CDC

4. Building on the updated CDC guidance, this Order consolidates, clarifies, and extends requirements related to wearing masks indoors and outdoors in the District of Columbia, provides guidance relating to the relaxation of other rules for persons who are fully vaccinated, and provides enforcement mechanisms for these requirements.

II. DEFINITION OF FULLY VACCINATED

Persons are considered fully vaccinated two weeks after their second dose in a 2-dose series, such as the Pfizer or Moderna vaccine, or two weeks after a single-dose vaccine, such as Johnson & Johnson's Janssen vaccine.

The Department of Health (DOH or DC Health) issues guidance elaborating on this definition and any qualifications or special limitations to it.

III. SPECIAL RULES FOR PERSONS WHO ARE FULLY VACCINATED

Consistent with any limitations specified by DC Health, and unless they are exhibiting unexplained symptoms of COVID-19 or actually have COVID-19, persons who are fully vaccinated may:

1. Gather or conduct activities outdoors with members of their household, or in small, outdoor gatherings of friends and family without wearing a mask except in crowded settings or venues;
2. Visit outdoors with a small gathering of vaccinated and unvaccinated persons with whom you do not usually socialize, without wearing a mask. Social distance must be maintained, and persons in the group who are not fully vaccinated must continue to wear masks.
3. Fully vaccinated persons may visit with a small group of fully vaccinated persons indoors in a private setting without wearing a mask under the conditions specified in DC Health guidance.

4. Travel in the United States without pre-departure, post-arrival, or post-return testing for COVID-19, unless exhibiting symptoms of COVID-19;
5. Resume activities following travel without need to self-quarantine;
6. Travel internationally without getting tested beforehand or self-quarantining afterwards, unless the destination country requires such testing before arrival. However, even fully vaccinated persons must:
 - a. show a negative test result or documentation of recovery from COVID-19 before boarding an international flight to the United States; and
 - b. get tested for COVID-19 three to five (3-5) days after return from international travel.
7. Continue activities following exposure to someone with COVID-19, without need for testing or self-quarantine, unless the vaccinated person is symptomatic for COVID-19 or lives in a group setting such as a correctional institution, congregate care facility, or other group home, in which case self-quarantine for fourteen (14) days and testing are still required; and
8. Be exempt from routine screening test requirements at any facility or among any group, unless they show symptoms of COVID-19 and unless the rules of that organization require screening tests, notwithstanding vaccination status

IV. PROVISIONS RELATING TO WEARING MASKS INDOORS

Except as specified in Section VII of this Order:

1. Individuals, employers, and other institutions shall follow DC Health Guidance relating to the wearing of masks, as such guidance may be updated from time to time to adjust for changing conditions as regards to the spread of the virus and new information about the efficacy of mitigation measures such as vaccines.
2. Employers shall provide masks to their employees and may establish rules for mask wearing at their offices or facilities that are more stringent than the rules set forth herein.

V. SPECIAL RULES RELATING TO BUSINESSES AND VACCINES

1. Businesses and other institutions are authorized to request to see someone's vaccine card or other adequate proof of vaccination, consistent with any applicable federal or

local law.

2. If a business or other institution should require vaccination for admittance, registration, or employment, it must provide exceptions: (a) for those who are medically unable to be vaccinated and (b) for those whose sincerely held religious beliefs forbid them from being vaccinated. For persons with a medical or a religious exemption, a business or other institution should admit such persons on the other terms afforded to persons who have been fully vaccinated.

VI. OUTDOOR AND TRANSIT-RELATED WEARING OF MASKS

Except as specified in Sections II and VI of this Order:

1. Unvaccinated persons leaving their residences shall wear a mask when they are likely to come into contact with another person, such as being within six feet of another person; and
2. Persons who are operating or a passenger in a taxi or a vehicle that is part of a Transportation Network Company, or who are a passenger on or operator of any form of public transit in the District, including a bus, subway, streetcar, shuttle bus or van, or school bus, must wear a mask at all such times, except for fully vaccinated persons working alone in contained areas such as the conductor's vehicle or in an information kiosk.

VII. EXCEPTIONS

1. DC Health may authorize exceptions to the requirement to wear masks through its guidance.
2. To summarize certain mask wearing mandate exemptions at the current time, wearing a mask is not required when:
 - a. A person is actually eating, drinking, or legally smoking;
 - b. A person is engaged in vigorous outdoor exercise and is maintaining social distance of at least six (6) feet from each other person;
 - c. A person is in the water at a swimming pool;
 - d. A person is in an enclosed office that no one else is permitted to enter;
 - e. A person is aged two (2) years old or younger;

- f. A person is unable to wear a mask due to a bona fide medical condition or disability, or is physically unable to remove a mask;
- g. A person is giving a speech for broadcast or an audience, provided DC Health rules on distance from audience are maintained;
- h. A deaf or hard of hearing person needs to read the lips of a speaker;
- i. The equipment required for a job precludes the wearing of a mask and the person is wearing that equipment, or when wearing a mask would endanger public safety;
- j. A person has been lawfully asked to remove the mask for facial recognition purposes; or
- k. Receiving services requiring access to the face, mouth or head, including without limitation, dental care, shaving, and facial treatments.

3. The enforcement provisions of this Order shall not be applied to persons in the judicial or legislative branches of the District government while those persons are on duty; and shall not apply to any employees of the federal government while they are on duty.

VII. MASKS DEFINED

For the purpose of this Order, masks include cloth face coverings, such as homemade cloth masks, or purchased fabric masks; medical masks; and surgical masks. Masks must cover the mouth and nose. To qualify as a mask, a gaiter must have at least two layers and also must completely cover the mouth and nose. Plastic face shields may supplement masks but do not replace the need for masks.

VIII. SUPERSESSION

This Order supersedes Mayor's Order 2020-080 and any other prior Order or agency guidance issued during the COVID-19 public health emergency to the extent of any inconsistency.

IX. ENFORCEMENT

1. Current DC Health guidance on masks, vaccinations, and other matters discussed in this Order controls. The Department of Health (DOH or DC Health) is authorized to issue rules pursuant to the Communicable and Preventable Diseases Act, approved August 11, 1939, 53 Stat. 1408, D.C. Official Code 7-131 et seq., to provide for the imposition of

penalties upon any individual or entity that knowingly violates this Order, and the Metropolitan Police Department is authorized to enforce those rules, except no youth under eighteen (18) years of age shall be charged with a violation.

2. All District government agencies that issue licenses, permits, certificates, endorsements, or other authorizations including the Department of Consumer Regulatory Affairs (DCRA), the District Department of Transportation (DDOT), the Alcohol Beverage Regulatory Administration (ABRA), the Office of the State Superintendent of Education (OSSE), the Department of For Hire Vehicles (DFHV), and the Department of Health may issue rules consistent with or take enforcement action directly under this Order to provide for the revocation, suspension, or limitation of a license, permit, certificate, endorsement, or other authorization of a person or entity that violates this Order.

3. For the purpose of this section, a violation of a rule, order, or other issuance (including a mandatory guidance) issued under the authority of a prior Order addressing the COVID-19 public health emergency shall constitute a violation of this Order.

4. Charges of violations of this Order may be referred to the Office of the Attorney General for possible prosecution in the Superior Court of the District of Columbia, in the name of the District of Columbia, and persons found to be in violation of this Order or other rules promulgated pursuant to the Order are subject to fines of up to one thousand dollars (\$ 1 ,000) per violation.

X. EFFECTIVE DATE AND DURATION

This Order shall be effective immediately and shall continue to be in effect through May 20, 2021, or until the date to which the state of emergency is extended, whichever is later. Any regulations or guidance issued pursuant to this Order, or its COVID-19 related predecessors, shall continue to be in effect through May 20, 2021, or until the date to which the state of emergency is extended, whichever is later, unless otherwise specifically limited after the issuance of this Order.
